

Planetary Data System

Radio Science Function

Dick Simpson

**MC Face-to-Face Meeting
Westwood, California
26,27 August 2014**

Outline/Presentation

- Mission/Restoration Highlights
 - Galileo Raw Radio Science Data (PDS3)
 - Lien resolution by JPL Radio Science Systems Group
 - Extended Mission data to be added
 - No activity in past year
 - Spare time activity within Cassini envelope
 - Magellan Radio Tracking Data (PDS3, 'new' data set)
 - Lien resolution completed; GEO determining next step
- Staffing: Simpson does little more than –
 - PDS4 and
 - Data reviews
- Software
 - Use: TBD
 - Developed at your node: none
 - What you need: anything for validation
